JOAQUIN MURIETTA, GULLAW.  
A Pioneer's Story of a Famous California Bandit's Career.

NASAL VOICES, CATARRH  
AND FALSE TEETH."

The following story is told by an old pioneer of California as the cause that led to Joaquin Murieta becoming a bandit and an outlaw. The famous desperado was well known in San Joaquin, and this country was the scene of many a daring and bloody exploit.

When thousands of gold seekers were pouring into California from all directions and from all countries, there lived near Sonora, Tuolumne county, a young Mexican named Joaquin Murieta and his wife Clara. They occupied a roughly built comfortable mud cabin of three rooms, an all who made their acquaintance were struck most pleasantly with their happy countenances and the many evidences of their devotion to each other. They were poor, but of equally happy dispositions; they were intelligent, and the husband spoke English with considerable fluency. Murieta was engaged in gardening, and along both sides of a little stream that flowed near the door of his cottage the ground had been carefully cultivated and was covered with numerous vegetables, which would soon be ready for market. Vegetables in those days were worth almost their weight in silver, and as the happy gardener worked and planned for the future when he could return with his wife to their native land he could hear his happy wife singing some sweet Spanish love song which he knew was intended for him.

A Mr. Wilson, an American, who had a claim near by, made his home at their cottage, and all three were warm friends. Murieta was deriving an ample income from his garden, and with the money received from Wilson for board he provided for his wife and son. The company guarantees satisfaction to purchasers. WATER IS ABUNDANT, CLIMATE EVEN AND HEALTHY. MEAN TEMPERATURE—WINTER, 58; SUMMER, 70.

Catarrhal troubles everywhere prevail and end in cough and consumption, which are promoted by malnutrition induced by deranged stomach action. The condition is a modern one, one unknown to our ancestors who prevented the catarrhal, cold, cough and consumption by abundant and regular use of what is now known as Warner's Log Cabin Cough and Consumption Remedy and Log Cabin Saraparilla, two old-fashioned, standard remedies, hand made from our ancestors, and now exclusively put forth under the strongest guarantee of purity and efficacy by the world-famous makers of Warner's Log Cabin.

These two remedies are as the spring and summer season advance give positive assurance of freedom, both from catarrhal and those dreadful and inevitable consequences, pneumonia, lung troubles and consumption, which so generally and fatally prevail among our people.

Comrade Eli Fisher, of Salem, Henry Co., Iowa, served four years in the late war and contracted a disease called consumption by the doctors. He had frequent hemorrhages. After using Warner's Log Cabin Cough and Consumption remedy, he says, under date of Jan. 19th, 1888: "I do not bleed at the lungs any more, my cough does not bother me, and I do not have any more smothering spells." Warner's Log Cabin Rose Cream cured his wife of catarrhal and she is "sound and well."

Of course we do not like to have our women called nose-talkers and false-teeth owners, but these conditions can readily overcome in the manner indicated.

FRIDAY, MAY 18, 1888

THE Virginia Democrats yesterday delayed the administration of Cleveland and the platform of 1884. That platform dodged the tariff issue and talked vaguely about protecting American industries while proportioning the revenue to economical expenditure. Mr. Cleveland and his friends have thrown off the mask and declared for free trade in principle and in practice as soon as they can reach it. How do the Virginians reconcile the two? Perhaps no reconciliation is necessary. The Democracy are not given to deciding abstruse questions. Most of them vote as they take their whisky, straight, and neither ask nor answer hard questions.

THE proposition of Mills of Texas to vote on his Tariff bill as a whole, acting first upon the Republican substitute, is a ticklish question. It is good in so far that it will make a straight campaign issue, while its effect upon the industries of the country, in event of the Mills bill being carried, could be averted by the Senate; but every Representative has some local interest to guard, and his constituents will be apt to make things warm for him if he fails to fight for it at all points. The Republicans ought not to help the Democrats out of their dilemma.

THE Chairman of the New York Republican Convention, yesterday, was correct in saying that with a free vote and a fair count, Republican would be to-day entrenched in Federal power. Judging from the State election in Louisiana, the prospects of such a vote and count in the South are not better now than in 1884. It is some consolation that a Solid South tends to make a Solid North, but the good time will come when the industrial development of the country shall break up sectional lines.

THE Minnesota Republican State Convention has given the Free-traders small comfort. The platform declares for protection without fostering monopolies, which is good Republican doctrine, and denounces the Mills bill as a "glaring subterfuge." The people of Minnesota evidently appreciate the value of the domestic market, notwithstanding the free-trade hopes which have been built upon their almost purely agricultural development.

THE United States presents a great financial spectacle for the nations of the world to come out and gaze at. Our Government is buying in its four per cent bonds at the rate of \$1.27 on the dollar. There is not a country in the world which has had occasion to do such a thing, nor was there ever one. It is a dear way of paying off a debt, but it is much better than letting the money lie idle in the treasury.

VOORHIES now wants it known that when he talked back to Ingalls he was not suffering from the Senatorial cold feet of commerce, but that on his leg he had a carbuncle as big as his fist. This accounts for many features of his address.

### TELEGRAPHIC SESSIVITIES.

### BLAINE FOR DEPEW.

The Plumed Knight's significant  
Talk to a Correspondent.

BUFFALO, May 18.—The Evening News published a letter last night from its European correspondent, who had an interview with Mr. Blaine at Genoa on the 27th of April. The following is the substance of the interview: The correspondent asked Blaine: "What do you think of Chauncey M. Depew for President?"

Blaine—I think he is a very good man and that he is very likely to get the Republican nomination.

"Will Mr. Cleveland be renominated by the Democratic side?"

Blaine—Yes, I think so. He seems to have given the general satisfaction to the Democrats.

"Do you think Mr. Depew would run against Mr. Cleveland?"

Blaine—Well, I am not prepared to say. Mr. Depew, if he accepts the Re-

publican nomination, would be forced to give up his position as President of the New York Central Road, which is very lucrative, for one that is not.

"Do you think Mr. Conkling had any influence with the Presidents?"

Blaine—No, candidly, I do not. Mr. Conkling was just at the very head of his profession, and I do not think he would have accepted the nomination.

"Do you intend to enter the field again?"

Blaine—Most assuredly not. I am over here for rest and comfort and am through with politics for awhile.

"Would you support Depew if he were nominated?"

Blaine—Yes, certainly. He is a very good friend of mine, and I should feel I was doing right in giving him my support.

"But would you be able to take part in an active canvass? Some of the newspapers have made you out very sick."

Blaine—Oh, yes, I know. But, then, I would much rather be sick on paper than in reality.

"Then you have not been very ill?"

"Not at all. Do I look very sickly?"

Inquired Mr. Blaine, with a smile.

"Then you consider Mr. Depew's chances as good as any?"

Blaine—"Certainly I do."

### THE TARIFF BILL.

The Republicans Not Yet Decided  
on a Course of Action.

WASHINGTON, May 18.—At a session of the Republican Caucus Committee last night the tariff bill was the subject of engrossing interest. It was the understanding that if the committee was able to come to an agreement upon the proposition made by Mills looking to a vote on the tariff bill and the substitute which he offered the Republicans to offer, the caucus should be called to formally ratify its action. The conference, however, revealed the fact that there was considerable difference among the members—not so much on the Mills proposition as on the substitute bill to be offered by the Republicans for the Mills bill. From the tone of the discussion, it appeared that a majority of the members might bring forward their own substitute on any proposition that may be advanced by them. The sugar bounty idea also had some advocates. The committee adjourned without issuing a call for a caucus, but the members were instructed to request state delegations to hold conferences and try to agree among themselves upon what they might regard as the best line of action. When this has been done the Caucus Committee will endeavor to conciliate the various propositions advanced by the State delegations and adopt a settled policy in the treatment of the matter.

Another Terrible Blow Up.

STOCKMAN, N. Y., May 18.—A terrible explosion of powder and dynamite occurred here in a powder mill this morning. Three men were killed outright and the mill was demolished. Two hundred and fifty barrels of powder and 200 cases of dynamite were in the mill, and the explosion shook the country for miles around.

Another Robber Caught.

NOGALES, May 18.—News has reached here that Ortiz, the Mexican who was said to have been interested in the late train robbery, was captured at Tucson. The man is a desperado. It is quite certain that the man Taylor has made a confession, though the officers are quite reticent about it.

The Snell Murder.

CHICAGO, May 18.—There are now important developments in the Snell murder case. This is an authority of a member of the family, who says in a short time the public will be enlightened and the mystery cleared about it.

Another Chance.

A company of Seventh Day Adventists arrived in Reno from Oklahoma a few days since and are engaged in preparing a camp ground for their annual State camp-meeting. A pavilion 45x65 feet has already been erected on the vacant lot between the Connor and Gilson orchards. In this they propose holding their religious services, and have nearly completed the seating arrangements. This morning posters were put up in different parts of town advertising that the meeting will commence Thursday evening, May 24th and conclude until Monday morning, June 4th. A cordial invitation is extended to the public in general.

Postponement.

### THE McDONALD CASE.

The Husband Says He is not Done  
With Dentist Younger Yet.

The lawyers in the McDonald divorce case were looking extremely troubled and perplexed this (Thursday) morning, and making anxious inquiries as to where all the information came from that has been published about the case, says the San Francisco Post. As one looked inquiringly to another, there was nothing but blank innocence in any expression. No one knew anything about it. Not one had told the reporters a word, but they had obtained the news just the same, and this constituted the mystery.

Martinez W. Fleming was the first witness called this morning. He is a partner of McNulty, the shoe dealer, of whom Mrs. McDonald bought at one time \$105 worth of shoes. The questions asked him were in regard to the collection of the bill. He said that McNulty sued McDonald for it and got judgment, which has not yet been satisfied, nor has the lawyer who conducted the suit received his fee. Mr. McDonald had previously stated that it had been paid.

Mr. McDonald's first witness, he ascertained the witness stand today was to explain what was published in the world against her, but on the contrary, to save her from the annoyance and embarrassment of being in any way mixed up in the case.

ONE OF THE BEST WOMEN.

He said he had the highest respect for her, and at her request had promised to do nothing that should in any way bring her into contact with his disagreeable case.

"Would you support Depew if he were given the general satisfaction to the Democrats?"

"Do you think Mr. Depew would run against Mr. Cleveland?"

Blaine—Well, I am not prepared to say. Mr. Depew, if he accepts the Re-

publican nomination, would be forced to give up his position as President of the New York Central Road, which is very lucrative, for one that is not.

"Do you think Mr. Conkling had any influence with the Presidents?"

Blaine—No, candidly, I do not. Mr. Conkling was just at the very head of his profession, and I do not think he would have accepted the nomination.

"Do you intend to enter the field again?"

Blaine—Most assuredly not. I am over here for rest and comfort and am through with politics for awhile.

"Would you support Depew if he were nominated?"

Blaine—Yes, certainly. He is a very good friend of mine, and I should feel I was doing right in giving him my support.

"But would you be able to take part in an active canvass? Some of the newspapers have made you out very sick."

Blaine—Oh, yes, I know. But, then, I would much rather be sick on paper than in reality.

"Then you have not been very ill?"

"Not at all. Do I look very sickly?"

Inquired Mr. Blaine, with a smile.

"Then you consider Mr. Depew's chances as good as any?"

Blaine—"Certainly I do."
